Photo emails for the towns that had none

10 November 2026. 72 messages for the eleven guides that had no photo requests written: Castle Rock, Estes Park, Fort Collins, Frederick, Golden, Lafayette, Leadville, Longmont, Loveland, Nederland and Windsor (with Severance). The other towns' messages are in `docs/archive/emails/ALL-PHOTO-EMAILS.md`. Fort Collins' parks, natural areas and CSU (E1 to E3) and Loveland's Benson Sculpture Garden request are there or in `LONGMONT-LOVELAND-PHOTO-EMAILS.md`, and are not repeated here.

Drafts only: nothing has been sent and no form submitted. Organizations with no email to be found are in `docs/PHOTO-NO-CONTACT.md`.

How these were written

- Every address was read on 10 November 2026 on the organization's own site or an official government page, and each message says where (**Found on**). A few were read from a page's protected-email code or a site's public feed; those messages say so. Where an address could not be confirmed, the message says that instead of giving one.
- Each message names the listings it is about, from the guide's own files. Counts of business listings leave out town halls, police, chambers and similar rows filed as "service"; each file's note says which.
- The money line is the one in `docs/PHOTOS.md`: nobody pays to be listed or placed higher, and any sponsorship is labeled and kept apart.
- Individual businesses get no message here. The trade-body message asks the chamber or downtown group to pass the ask on; the one-to-one wording is in `docs/PHOTOS.md`, section 2.

Before you send

1. Send from your own address. The text names `hello@<the town's domain>`, which forwards to you.
2. Sign each one: every message ends with `<name>`.
3. Where a town has two trade bodies, or one inbox gets two messages (Boulder County gets Longmont-4, Lafayette-6 and the optional Nederland one), send them a week apart or merge them. Each message's note says so.
4. When a photograph comes back, add its row to `IMAGE_LICENSES.csv` and the permission to `PERMISSIONS.md` before it goes on a page, and keep the reply (`ALL-PHOTO-EMAILS.md`, "When a photograph comes back").

Covered by the Douglas County grant

No email. Douglas County Open Space & Natural Resources granted "any photo from the website" on 6 October 2026 (PERMISSIONS.md, Douglas County section). Use the county's own photographs on douglasco.gov (check the EXIF names the county), credited "Douglas County".

- Fairgrounds Regional Park, Trail and Dog Park
- Glendale Farm Open Space, Trail and Dog Park
- Dawson Butte Open Space and Trail
- Douglas County Fairgrounds (a county page on douglasco.gov, though not run by the Open Space team that answered)

PERMISSIONS.md's "Standing" line notes the grant answered a request for Inside Elizabeth, and suggests one line to openspace@douglasco.gov confirming it covers Inside Castle Rock before a county photograph goes on it. Not drafted here, as asked.

Frederick

Send from your own address; the text names hello@insidefrederickco.com, which forwards to you.

Counts: the guide has 31 listings, 11 of them businesses (a brewery, two coffee shops, three restaurants, three stores, an acupuncture clinic and a dog daycare). None of the 11 has a photograph. Eight have Frederick addresses and three are in Firestone (Pepper's Fireside Grille, Safeway, Walgreens). The other five "service" rows in the photo list are public bodies or a nonprofit and are not counted as businesses: Town Hall, the Police Department, the fire district and the Weld County complex are on the walk list at the end; the Carbon Valley Help Center is Frederick-6. Bella Rosa Golf Course is the Town's (the directory lists it under Parks), so it is in Frederick-2, not counted as a business.

The Carbon Valley Chamber of Commerce, the trade body for Frederick, Firestone and Dacono, could not be reached (see the no-contact file). Frederick-1 goes to the Town's Economic Development Manager instead, as Berthoud's did.

Lafayette

Send from your own address; the text names hello@insidelafayette.com, which forwards to you.

Counts: the guide has 40 Lafayette listings, 14 of them businesses (bars, coffee, restaurants, shops). None of the 14 has a photograph, and 8 of them are in Old Town by the listings' own area field. The four "service" rows in the photo list are not businesses (the Chamber itself, City Hall, the Police Department, the Senior Center), so they are left out of the count: the Chamber's own listing is asked for in Lafayette-1 and the other three are on the walk list at the end.

Watch the domain: `downtownlafayette.org` is Lafayette, Louisiana. The Colorado downtown body is the Lafayette Downtown Development Authority (Lafayette-2).

Subject: `Leadville Ranger District: photograph permission for a free Leadville guide`

> Hello,
>
> I publish Inside Leadville (insideleadville.com), a free local guide to the town. It lists four places on the Leadville Ranger District, with the facts from your pages: the Turquoise Lake Recreation Area, the North and South Mount Elbert trailheads, the Mount Massive Trailhead by Elbert Creek Campground, and the district office on Front Street. Nobody pays to be listed or to be placed higher, and any sponsorship is labeled and kept apart from the listings.
>
> None of the four listings has a photograph. Could this reach the Leadville district?
>
> Two questions:
>
> 1. Does the Forest Service hold photographs of any of these that we could use? We would credit the Forest Service on every one and take any of them down the day you ask.
> 2. If not, do we need a permit to photograph there ourselves for the guide? We would of course wait for the Willow Fire area closure to lift before going anywhere it covers.

Longmont-3. City of Longmont, Parks and Natural Resources — 8 sites

To: `PIO@longmontcolorado.gov` (Public Information)
Cc: `facility.rentals@longmontcolorado.gov` (the address that issues Commercial Use permits in parks)

Parks and Natural Resources publishes a phone, (303) 651-8416, and a service-request link, but no email: https://longmontcolorado.gov/parks-and-natural-resources/. The Commercial Use page says the permit covers "professional photography/video on public space" ($15 a day on weekdays, $25 on weekends, 10 business days' notice, a certificate of insurance naming the City); question 2 asks whether that applies to us. Union Reservoir has its own fee structure: `union@longmontcolorado.gov`, same page.

Found on: https://bouldercounty.gov/open-space/parks-and-trails/mud-lake/ (Contact Us block; 303-678-6200)
Subject: `Mud Lake gallery photographs for Inside Nederland`

Optional. The county's grant of 18 September 2026 (PERMISSIONS.md) covers only the Heil, Ron Stewart Preserve and Niwot Trails gallery pages, and says to ask before using any other page, so Mud Lake needs its own yes. The second Timnath question is already answered on the county's permits page (https://bouldercounty.gov/open-space/activities/permits/): "Individuals engaging in still camera photography do not need a permit if the activity occurs during open hours and has less than 25 people." So this asks the one question, and Mud Lake is also on the walk list below. The gallery is https://bouldercountyopenspace.org/photos/mud/ ; of its scenic frames, "Mud Lake" mud-05 has no people in it, and mud-06 shows a family, so leave that one out.

> Hello,
>
> Thank you for letting us use the photographs on your Heil, Ron Stewart Preserve and Niwot Trails gallery pages in September. They are on our Lyons and Niwot guides now, credited to Boulder County.
>
> I also publish Inside Nederland (insidenederland.com), a free local guide to the town. It lists Mud Lake Open Space with the five easy trails, the group shelter and the sunrise-to-sunset rule from your Mud Lake page. Nobody pays to be listed or to be placed higher, and any sponsorship is labeled and kept apart from the listings.
>
> The Mud Lake listing has no photograph. May we use the images on your Mud Lake gallery page (bouldercountyopenspace.org/photos/mud/) on the same terms, credited to Boulder County and taken down the day you ask?
>
> If not, I see from your permits page that still photography in open hours with fewer than 25 people needs no permit, so I will photograph it myself.

Subject: `Photograph permission for a free Windsor guide`

> Hello,
>
> I publish Inside Windsor (insidewindsorco.com), a free local guide to Windsor and Severance. It lists the Town's parks and the recreation center with what is in them, linked to your pages. Nobody pays to be listed or to be placed higher, and any sponsorship is labeled and kept apart from the listings.
>
> Six listings have no photograph: Boardwalk Park and Windsor Lake, Chimney Park and the Chimney Park Pool, Eastman Park, the Treasure Island Demonstration Garden, Windsor Highlands Park and the Community Recreation Center.
>
> Two questions:
>
> 1. Do you hold photographs of any of these that we could use? We would credit the Town on every one and take any of them down the day you ask.
> 2. If not, do we need a permit to photograph in the parks ourselves for the guide? We would keep park users out of the frame.
>
> Thank you, <name>
