Photo requests with no email to send to

10 November 2026. The companion to `docs/PHOTO-EMAILS-NEW-TOWNS.md` and `docs/archive/emails/ALL-PHOTO-EMAILS.md`: everyone we would ask for a photograph but could not find an email address for. Each needs a phone call, a contact form, a visit, or a browser check of a site that refused automated reading. Nothing here has been sent.

When one of these turns up an address, add it to the town's message in `PHOTO-EMAILS-NEW-TOWNS.md` and take the row out of here.

1. Organizations in the eleven new towns (12)

Searched on 10 November 2026. "Tried" is every page read; "Other route" is what can be used instead. A site that answered 403 often opens fine in a normal browser: try it there first.

3. Listings with no website and no phone on file (10)

Places with no photograph and no way to reach them in the guide's files. The listing is the only record; these are a walk past, or a question to the town's trade body. A storefront on a public street can be photographed from the pavement without asking (`docs/PHOTOS.md`).
